### President's Message:

It is the time of year, to begin thinking about renewing your ISACA membership. I encourage you to renew on-line, the cost for you is lower than renewing through paper and mail. One benefit that ISACA started this year is educational webcasts held periodically to update ISACA members on current issues and trends. Please see [www.isaca.org/webcasts](http://www.isaca.org/webcasts) for archives and the schedule of upcoming webcasts.

Another benefit that ISACA provides are the informative conferences that help increase the knowledge of the membership. The conferences that are coming up are ISACA Training Week being held in Dallas, November 6-10; and also in Orlando, December 4-8th. ISACA also publishes information through ITGI. Every month more papers are being published. I always find documents that are relevant to a project that I am working on and I know you will too. See the ITGI website at [www.itgi.org](http://www.itgi.org).

Another excellent resource is K-NET, which contains resources pertaining to knowledge covering IT Governance, Assurance, Security and Control. The website for K-NET is [www.isaca.org/Template.cfm?Section=K-NET4&Template=/gir/girMenu.cfm](http://www.isaca.org/Template.cfm?Section=K-NET4&Template=/gir/girMenu.cfm).

Over the past couple of months, our webmaster has been transitioning our website, [www.isaca-centralohio.org](http://www.isaca-centralohio.org), to a new hosting provider. There have been some issues with registration for the November luncheon and December Social Event. To make sure that you are registered for these events, please re-register. I am sorry for any convenience this may cause and I have been informed that all issues have been remedied.

And lastly, I would like to say good luck to those individuals who have registered for the CISM and CISA exams in December. See everyone on at the November luncheon."

*Jason*

### Chapter Board

#### President:

Jason McKittrick, CISA, CISSP

#### Vice-President:

Joseph Ponnoly, CISM, CISA, CISSP

#### Treasurer:

Mike Brady, CISA

#### Secretary:

Melissa Justice, CISA

**Meeting Topic:** The State of Messaging Security

**Speaker:** Guy Lever

**Synopsis:** As Secure Computing's Director of Marketing, Guy is responsible for driving marketing activities related to the company's suite of products. These include coordinating press launches, working closely with developers to ensure delivery deadlines, and helping to drive lead generation activities around product offerings. Prior to joining CipherTrust, Guy held positions as the Director of the retail Business Line with XcelleNet, the Director of Product Management with ServiceCentral Technologies, and the Director of Marketing and Sales with Cavi-Tech, Inc. Guy received both his BA and MBA from Vanderbilt University.

#### COBIT Courses Available

To help companies improve governance and comply with Sarbanes-Oxley using the Control Objectives for Information and related Technology (COBIT®) framework, ISACA has launched two e-courses co-developed by ITpreneurs: the COBIT Foundation Course™, updated to reflect COBIT® 4.0, and COBIT for Sarbanes-Oxley Compliance.

Available at [www.isaca.org/cobitcampus](http://www.isaca.org/cobitcampus), the courses are self-paced electronic tutorials.
