

Central Ohio Chapter

President's Address—Wow, A special thanks to all of you who donated toy(s) for the Toys for Tots at our last meeting. We were able to collect 35 toys, this is a great leap forward from last year and hopefully next year we will be able to keep that needle moving up.

We have a wonder speaker for our January meeting where Kevin Saionzkowski will be joining us from the State of Ohio Auditor's Office to give us an in-depth look into a recent fraud case.

If you or your colleagues were thinking about registering for the Planning, Scoping, and Executing Integrated Audits class this February 6th and 7th, you better sign up soon as we are getting close to a sellout. Details for the class can be found at our Chapter Website. We hope to see each of you at the monthly meeting!

Planning, Scoping, and Executing Integrated Audits Training – 15 CPEs

Developing and Implementing a Successful Integrated Auditing Strategy

Description: This two-day seminar will review an integrated auditing methodology, which focuses on a top-down, risk-based approach to auditing application systems and testing techniques that can be applied to integrated audits. The course covers the key risks addressed during an integrated audit, including application controls, user access, separation of duties, change management, and business continuity planning. In addition, the course will cover why key IT infrastructure components such as operating systems and database management systems must be considered as part of the integrated audit. You will leave this intensive seminar with the skills and know-how you need to develop and implement a successful integrated auditing strategy. For more information and to register click [HERE](#).

Special 4CPE Joint IIA/ISACA Meeting: Thursday, February 9, 2012

A morning long case study on disaster recovery in action. Key topics include: working with key vendors and suppliers to obtain the materials and equipment we needed to keep the business going, managing the relocation of essential personnel and equipment, and lessons learned, See [HERE](#) for more details.

****Times - PLEASE NOTE THE SPECIAL TIMES!!****
